

# DAN-GN-MIC

## INFORMATION

*Built-in high-performance embedded CPU, faster processing speed, finely crafted structural design, exquisite surface treatment, fully reflect the exquisite craftsmanship of modern industry, with live "hot swap" function, short circuit protection function, the system unit provides DANTE Digital audio output interface.*

- 1. Top-grade gold film high-fidelity microphone capsule, guarantee of high-quality sound pickup, all-metal microphone rod design.*
- 2. High sensitivity microphone, super cardioid pickup effect, the best pickup distance is 10-50CM.*
- 3. Have the microphone physical switch key.*
- 4. The system unit provides DANTE digital audio output interface.*

Pointing feature	Supercardioid
Sensitivity	-40dB
Equivalent noise level	<25dBSPL (A)
Signal to noise ratio	65dB, 1kHz
Base size	149mmx94mmx55mm
Frequency response	100-16kHz
Maximum sound pressure level	110dB(3% THD@1kHz , 0dBSPL=2x10Pa)
Overload harmonic distortion	<1%
Microphone size	42cm
